

Consulting

Using the latest tools and techniques, our CAE consultants support a variety of industries, including Automotive, Capital Equipment, Biomedical and Aerospace.

Training

ANSYS®

As an ANSYS Channel Partner, we provide both standard curriculum and customized ANSYS training for all experience levels.

Attend courses at your facility or ours, or the Detroit-based ANSYS-Michigan training center.

CADfix®

As a Certified CADfix Solutions Provider, we apply the CAE perspective to every CADfix course we teach.

Mentoring & Knowledge Transfer

Our mentoring services provide personalized, one-on-one training, customized to your specific needs.

Our collaborative knowledge transfer offerings provide project leadership and mentoring for both small and large teams.

The Kx Advantage

Kx delivers quality, customized solutions, backed by over 15 years of engineering experience.

Our customers discover significant business benefits through our specialized tools and techniques, including:

- Rapid virtual prototyping
- Shorter concept-to-production cycle times
- Optimized engineering processes and product designs

Custom CAE Services

As expert CAE specialists, we build custom applications that improve your productivity:

- Faster simulation turn-around
- Consistency of techniques
- Efficient communication via the Web

Our unique experience in the conversion of digital imaging to CAE including CT → FEA allows:

- Reverse engineering of critical components
- Inclusion of physiological parts in biomedical simulation
- Direct comparison of test hardware and simulation models
