

SERVICES

Advanced Engineering Simulation

- Certified ANSYS Simulation Consultants
- High-end engineering simulation and finite element analysis
- Experience in the aerospace, automotive, biomedical, and capital equipment industries
- Development of application-specific, custom CAE software
- Virtual prototyping/testing
- Design optimization
- Reverse engineering from 3-D scans

Software Sales and Deployment

- ANSYS Certified Channel Partner
- Master Distributor of ANSYS DesignSpace®
- Deployment of simulation throughout the entire organization
- Technical support and knowledge transfer

Training and Mentoring

- Standard curriculum for all levels of ANSYS, DesignSpace®, and CADfix®
- Custom training to suit your needs
- Courses offered on-site, at Kx offices, and at partner facilities throughout North America
- One-on-one mentoring

Communication

- Web-based project communication and management
- Web conferencing for technical support and product demonstrations
